Leopard Wallpaper V1.0 is designed by Eric St. Pierre for Unifutur. This is the first version of

Leopard Wallpaper for Windows 7. With this wallpaper theme, you can see Yosemite and b7e8fdf5c8

- This is a Win 7 theme designed specially for the sunrise and sunset. You'll be amazed how beautiful the Windows 7 interface will look if you use this theme in conjunction with your favorite pictures of the sun! - Bringing the sunset to your desktop is easier

than ever thanks to this awesome theme. It's a straightforward and easy solution to this great dilemma. - Unlike other themes, Sun Cloud is specifically designed to bring the sunrise and sunset to your desktop. It's available in three screen sizes: 1280*1024, 1152*864 and

1024*768. You can easily adjust the theme's setting options to get the right size for your screen. - Does what it's supposed to do. Sun Cloud is a part of our "Sunny" collection. Here are some more details about it: - Designed for the vivid sunset. - Available in three screen sizes: 1280*1024, 1152*864 and

1024*768. You can easily adjust the theme's setting options to get the right size for your screen. - It's a simplified version of our "Sunrise" theme, where the sun is directly on the edge of the desktop. - Easy to use: - You're about to see a totally new Windows 7 desktop experience. - Window dressing: -

Just use the up and down arrows to enable or disable the various window dressing options, such as "Blur." This is the same system used by SunCloud - Plus: - It's a FREE theme which is ad-free and virus-free. - If you have any problem please contact us by sending us a message and we will try to help you

as soon as possible. - Be one of the first to be informed of any issues and new releases. - We'd love to hear your feedback so please feel free to send us an email at support @vividsounds.com with any feedback or suggestions for improving this product. We'll make sure to keep you up-to-date with any future releases.

New in version 1.1.0
- New: You can now easily choose the Windows Classic/Modern taskbar button. - New: There are two new dock icons to choose from - "SunCloud Classic" and "SunCloud Modern." - Improved: The default dock theme has been improved. - Improved: SunCloud borders

now includes light and dark variants. - Improved: The "Start menu" button now uses more consistent Windows

What's New In?

Sun Cloud comes in three parts. 1. The theme itself; 2. The actual icons that appear on your desktop. 3. A custom desktop wallpaper. Sun

Cloud is a simple, yet beautiful theme. In fact, if you were to see Sun Cloud on another user's desktop, it would look like that user had been using a background that looks like a sunset all day. So that's exactly what you get with this theme! If you are in need of a gorgeous background that will bring the sunset to

your desktop, then Sun Cloud is just what you are looking for. Look at the install video and see for yourself. It's that easy! Installation Instructions: 1. First, you need to launch Sun Cloud and open up the license file that is attached to the theme. 2. You may be prompted to choose your language. 3. Click

on Install Theme, then you should see a "Thank You" message. 4. Congratulations! You have a new theme on your desktop! As for the icons, you can easily change them to any that you want and any color scheme you want. Simply copy the icons to where you want them on your desktop and change

the colours. NOTE: If you really want to be able to use the Win 7 Starter theme along side Sun Cloud, simply copy the Windows 7 Starter logo to the same location where your Sun Cloud logo is and change the colours. Please be aware that this is a theme for Windows 7. I have tested this theme and it will

work fine on Windows 8 and Windows 10. YOU ARE BENEATH MY FEATHERS! I know that Windows 7 looks nothing like Windows 8 and 10. Honestly, that's why I designed a Windows 7 theme that looks like Windows 8 and 10! I wanted to give you a Windows 7 theme that looks like Windows 8 and 10.

You know what? I just thought it might be fun! The "feather theme" is now on sale for only $1.99 USD and $2.99 CAD. Just hit the "Buy Now" button. That's right! Right now the "feather theme" is only $1.99 USD and $2.99 CAD. Trust me! I tested this theme. It will work fine on Windows 8. I tested it on my

laptop and it will work fine there. You might be thinking that Windows 8 and 10 look nothing like

System Requirements For Sun Cloud:
